Mr. Cum Posey
508 Dixon St.
Homestead, Pa.

Dear Mr. Posey:

I have written you on several occasions asking you to send me the statement that you all used to make out what the league owe me and the dates that the owners said that I had recieved money from you and them but I have fail to hear from you and have not as yet recieved the statement as I do know that you all had some kind of statement.

If you will please send the statement to me at once and I will know just how to contradict the account which I know is all together wrong.

As you remember when you was in Philadelphia you told me that the four clubs that was playing in Newark on the next sunday was going to give Craig and I \$50.00 each but they did not,

S. H. wanted to do it, Gus, Manley but Semler kicked on it and we only got \$7.50 and after we went back to Philadelphia See and Gus gave us \$2.50 more and said that we was due to get \$10.00 for all four team doubleheaders, and the sunday before that which was the East West game Mr. Manley have us charged for both of the sundays from his account which was exhibition games., He also have me charged with the sunday that I was in Washington in a four team double header and his club wasn't even in the games, and another sunday that we was in Baltimore when we was there and Newark wasn't in it.

From the way I see it Mr. Manley must to have made up his state- at the meeting or he has charged us with all monies regardless as to who it was supposed to be charged to, as you know in the last of the season Mr. Gottlieb assigned us out and he said that he was going to use us and would not have to work the extra umpire and he would assign me to Newark on one ~~xxx~~ date and Craig was my extra man and on the other he would assign Craig and I would work extra and Manley have both of us charged \$7.50 each for the same date which will make him make the league pay for his extra umpires.

I am in hopes that you will do this for me and that I will be able to see you real soon. I am yours truly.

Fred D. McCrary
